## **Mingus Mountain curve improvements beginning on SR 89A**

PRESCOTT – The Arizona Department of Transportation will begin construction on June 7 to realign a curve on State Route 89A 12 miles east of Prescott Valley. The project is scheduled for completion in August.

In addition to improving the curve, ADOT will also install a retaining wall adjacent to the roadway and drainage pipes beneath the roadway surface. A separate project to repave a six-mile segment of the roadway north and south of the curve realignment will begin in July.

Work hours will be 5 a.m. to 3 p.m. Monday through Thursday. During work hours the roadway will be restricted to one lane and flaggers will be on site to guide motorists through the construction zone. Drivers should expect delays of up to 15 minutes. Vehicles will be restricted to a maximum of eight feet in width and 40 feet in length. All vehicles exceeding these limits will be required to use SR 69, I-17 and SR 260 to travel between the Prescott area and the Verde Valley.

More information regarding this project is available at the project hotline at 1-866-751-2083. To receive construction e-updates, e-mail [prescottdistrictupdates@azdot.gov](mailto:prescottdistrictupdates@azdot.gov).

While ADOT strives to inform the public about planned roadway restrictions, during any construction project, unscheduled closures or restrictions may occur. Drivers are advised to visit ADOT's Travel Information Site at [www.az511.gov](http://www.az511.gov) or call 5-1-1 for the most current information about restrictions statewide.
